General View of Main Dam

Welcome to the Nam Ngiep1 Hydropower Project

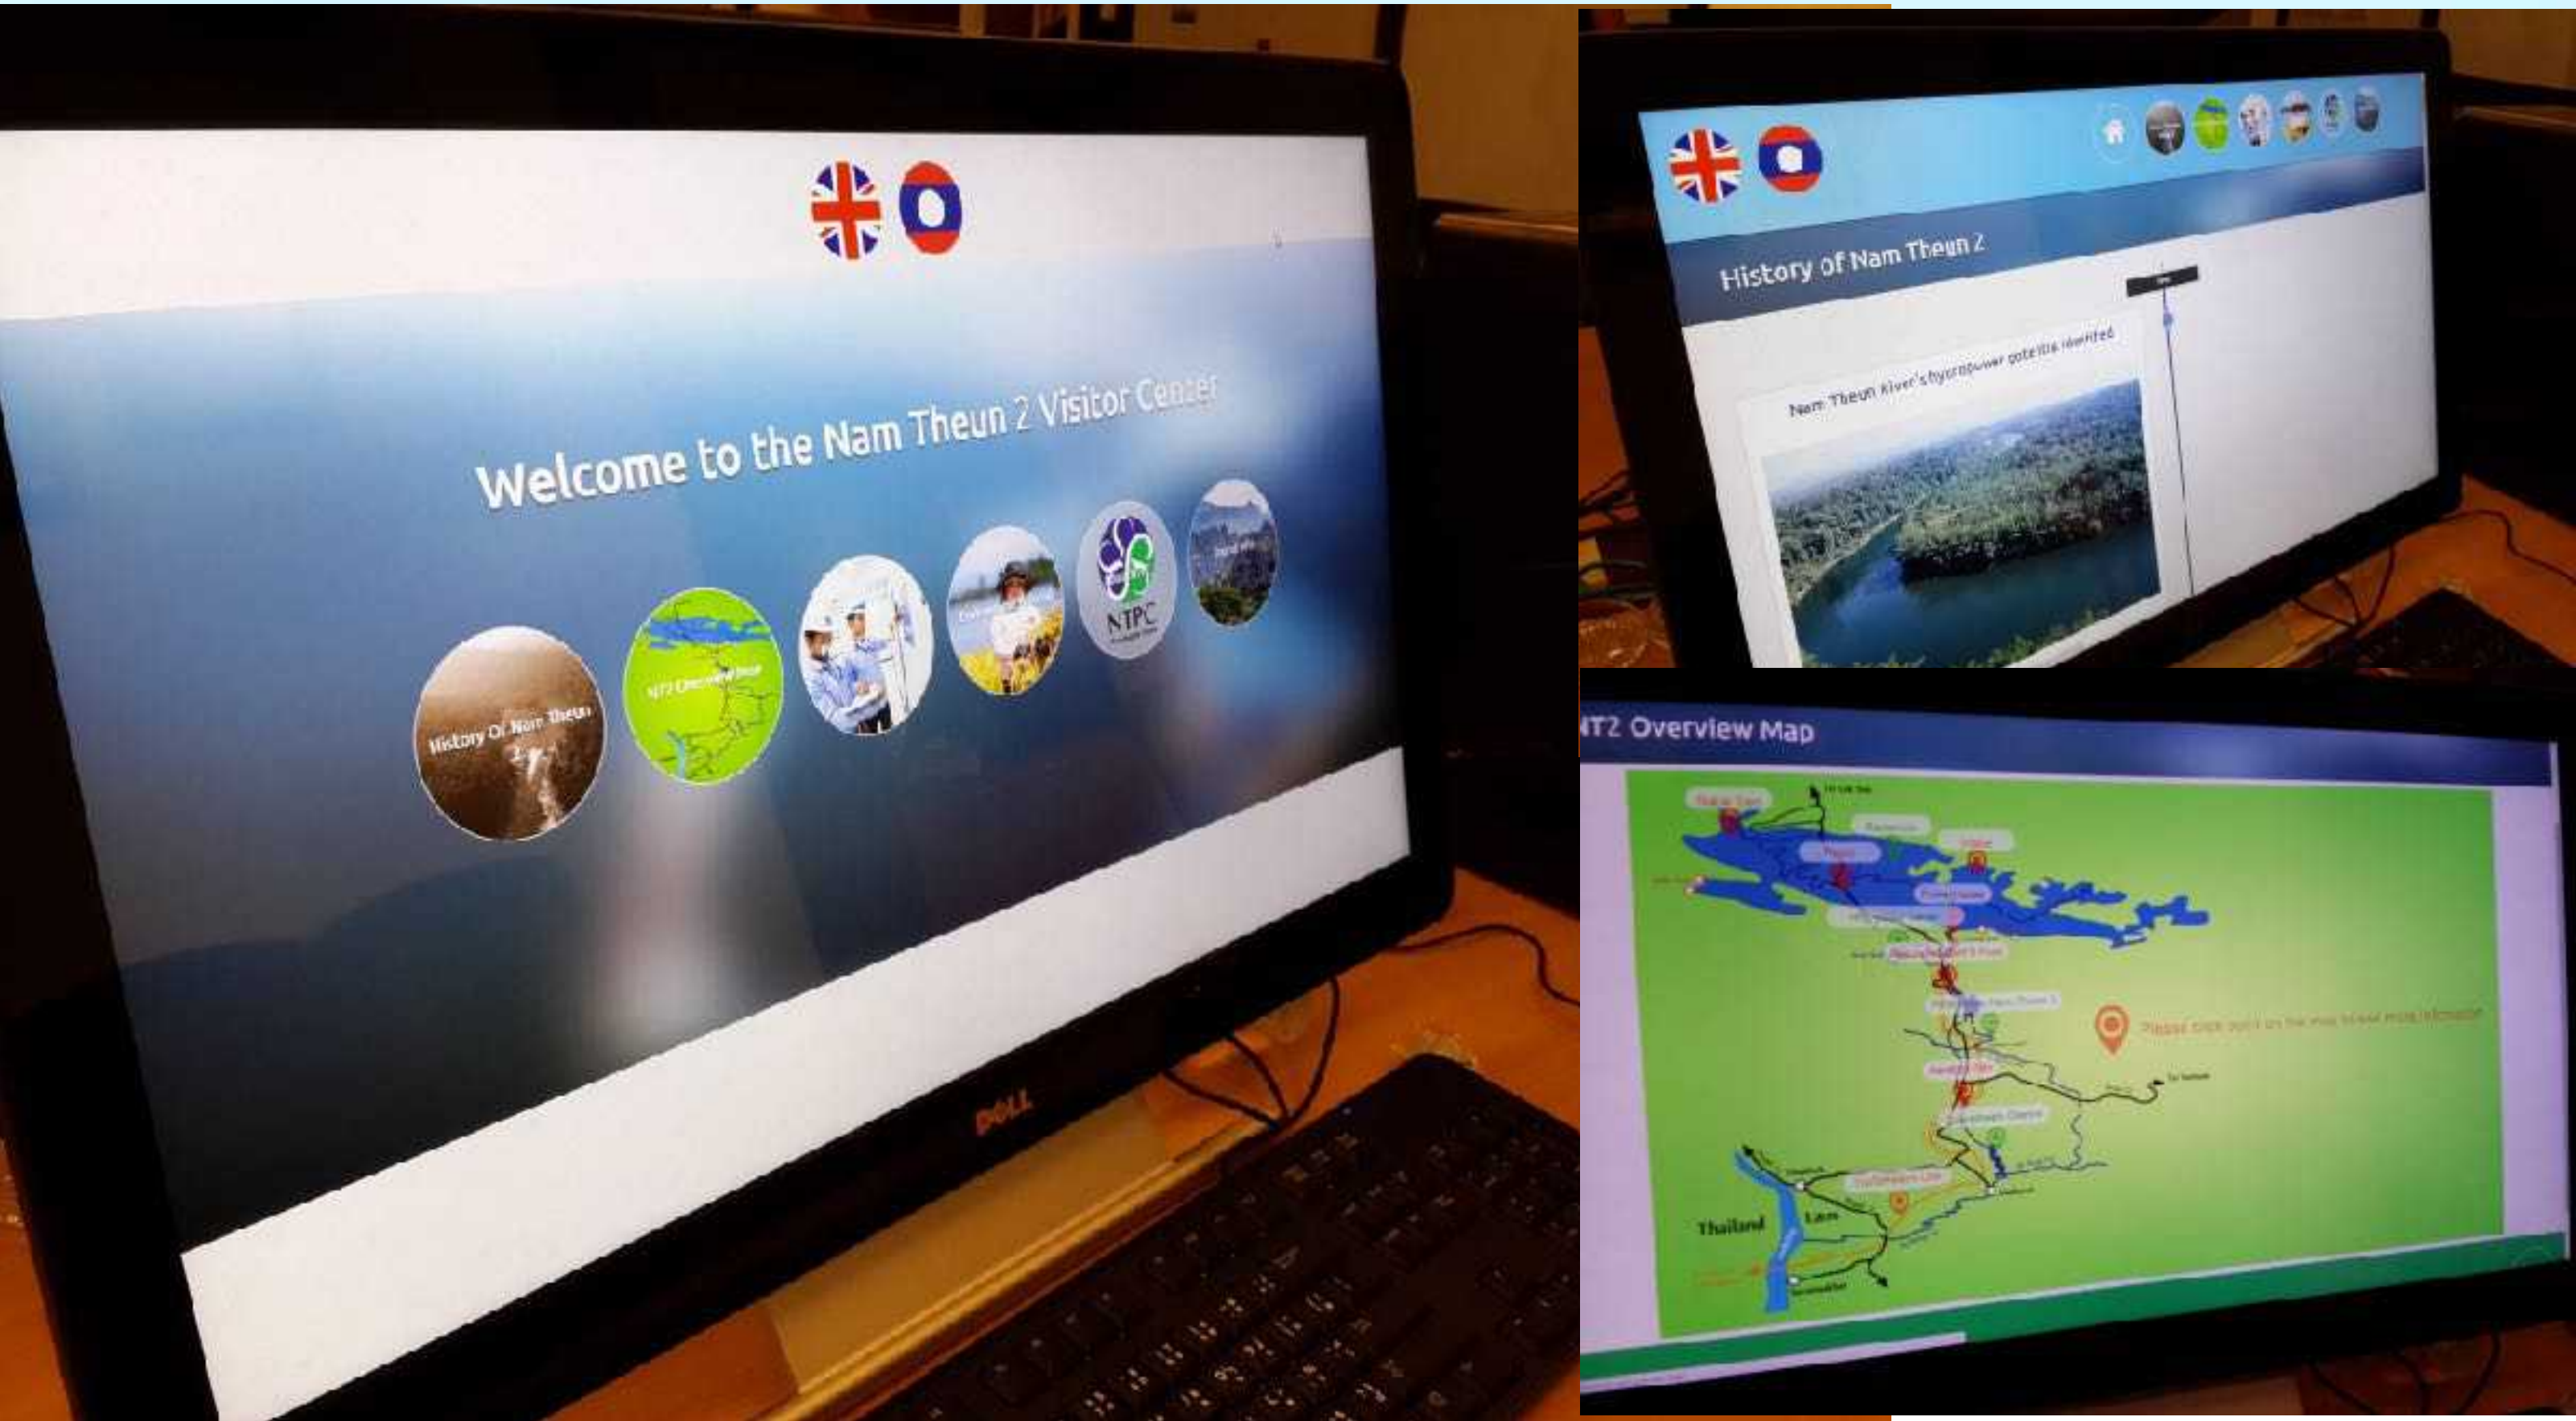

Nam Ngiep 1 is a 290-megawatt hydropower project under operation in Bolikhamxay and Xaysomboun provinces of the Lao PDR. The project is being operated by the Nam Ngiep 1 Power Company, whose goal is to build a socially and environmentally responsible power project that will provide clean renewable electricity and contribute to poverty reduction in Laos.

Two dams and power stations were constructed along the Ngiep River in Bolikhamxay. The main 167-metre-high dam creates a water storage reservoir covering a 67-km² area extending into Xaysomboun province. Around 4,000 people, mainly ethnic Hmong, were resettled to the Houaysoup area of Bolikhamxay and other districts in both Bolikhamxay and Xaysomboun provinces to facilitate the creation of the plant.

At the main dam site a primary power station generates around 272 MW of electricity for export to Thailand and releases water to a regulating pond where a second dam and power station generates around 18 MW of electricity for local use. The re-regulating dam ensures smooth release of water to minimise the disruption on water levels in the river downstream.

Laos Australia Institute

The screenshot shows the website of the Laos Australia Institute. The header features the institute's logo on the left, which includes a stylized blue and white emblem and the text 'ສະຖາບັນ ລາວ-ອົດສະຕຣາລີ' and 'LAOS AUSTRALIA INSTITUTE'. On the right is the 'Australian Aid' logo with a red kangaroo. Below the header is a navigation bar with links: 'Home', 'About Us', 'Australia Awards', 'LANS', 'HRD', and 'Alumni'. A search icon is also present. The main banner features a photograph of a smiling couple and the text 'Make a difference with an Australia Awards Scholarship.' Below this, it states 'Applications open 1 February 2021' and 'Applications close 30 April 2021', with the website 'www.australiaawardslaos.org'. A 'Latest News' section at the bottom contains two smaller images: one repeating the scholarship announcement and another titled 'CALL FOR PROPOSALS' for 'ALUMNI INNOVATION' with a 'Second Round' badge.

Web Application Development

Enterprise Management System

Type	Web Application
Year	2018-2019
Description	This web application is specifically designed for our clients, enabling them to effortlessly generate quotations, invoices, and efficiently track payments. It also offers seamless integration with their product preferences, ensuring a smooth and convenient experience.

School Management System

Type	Web Application
Year	2018-2019
Description	This Web application is tailored for schools, providing a comprehensive management system for school information, fees, and student records. Additionally, it offers a convenient grading feature, allowing students to receive grades, and parents can log in to access and monitor their child's academic progress.

PRF Online Monitoring Systems

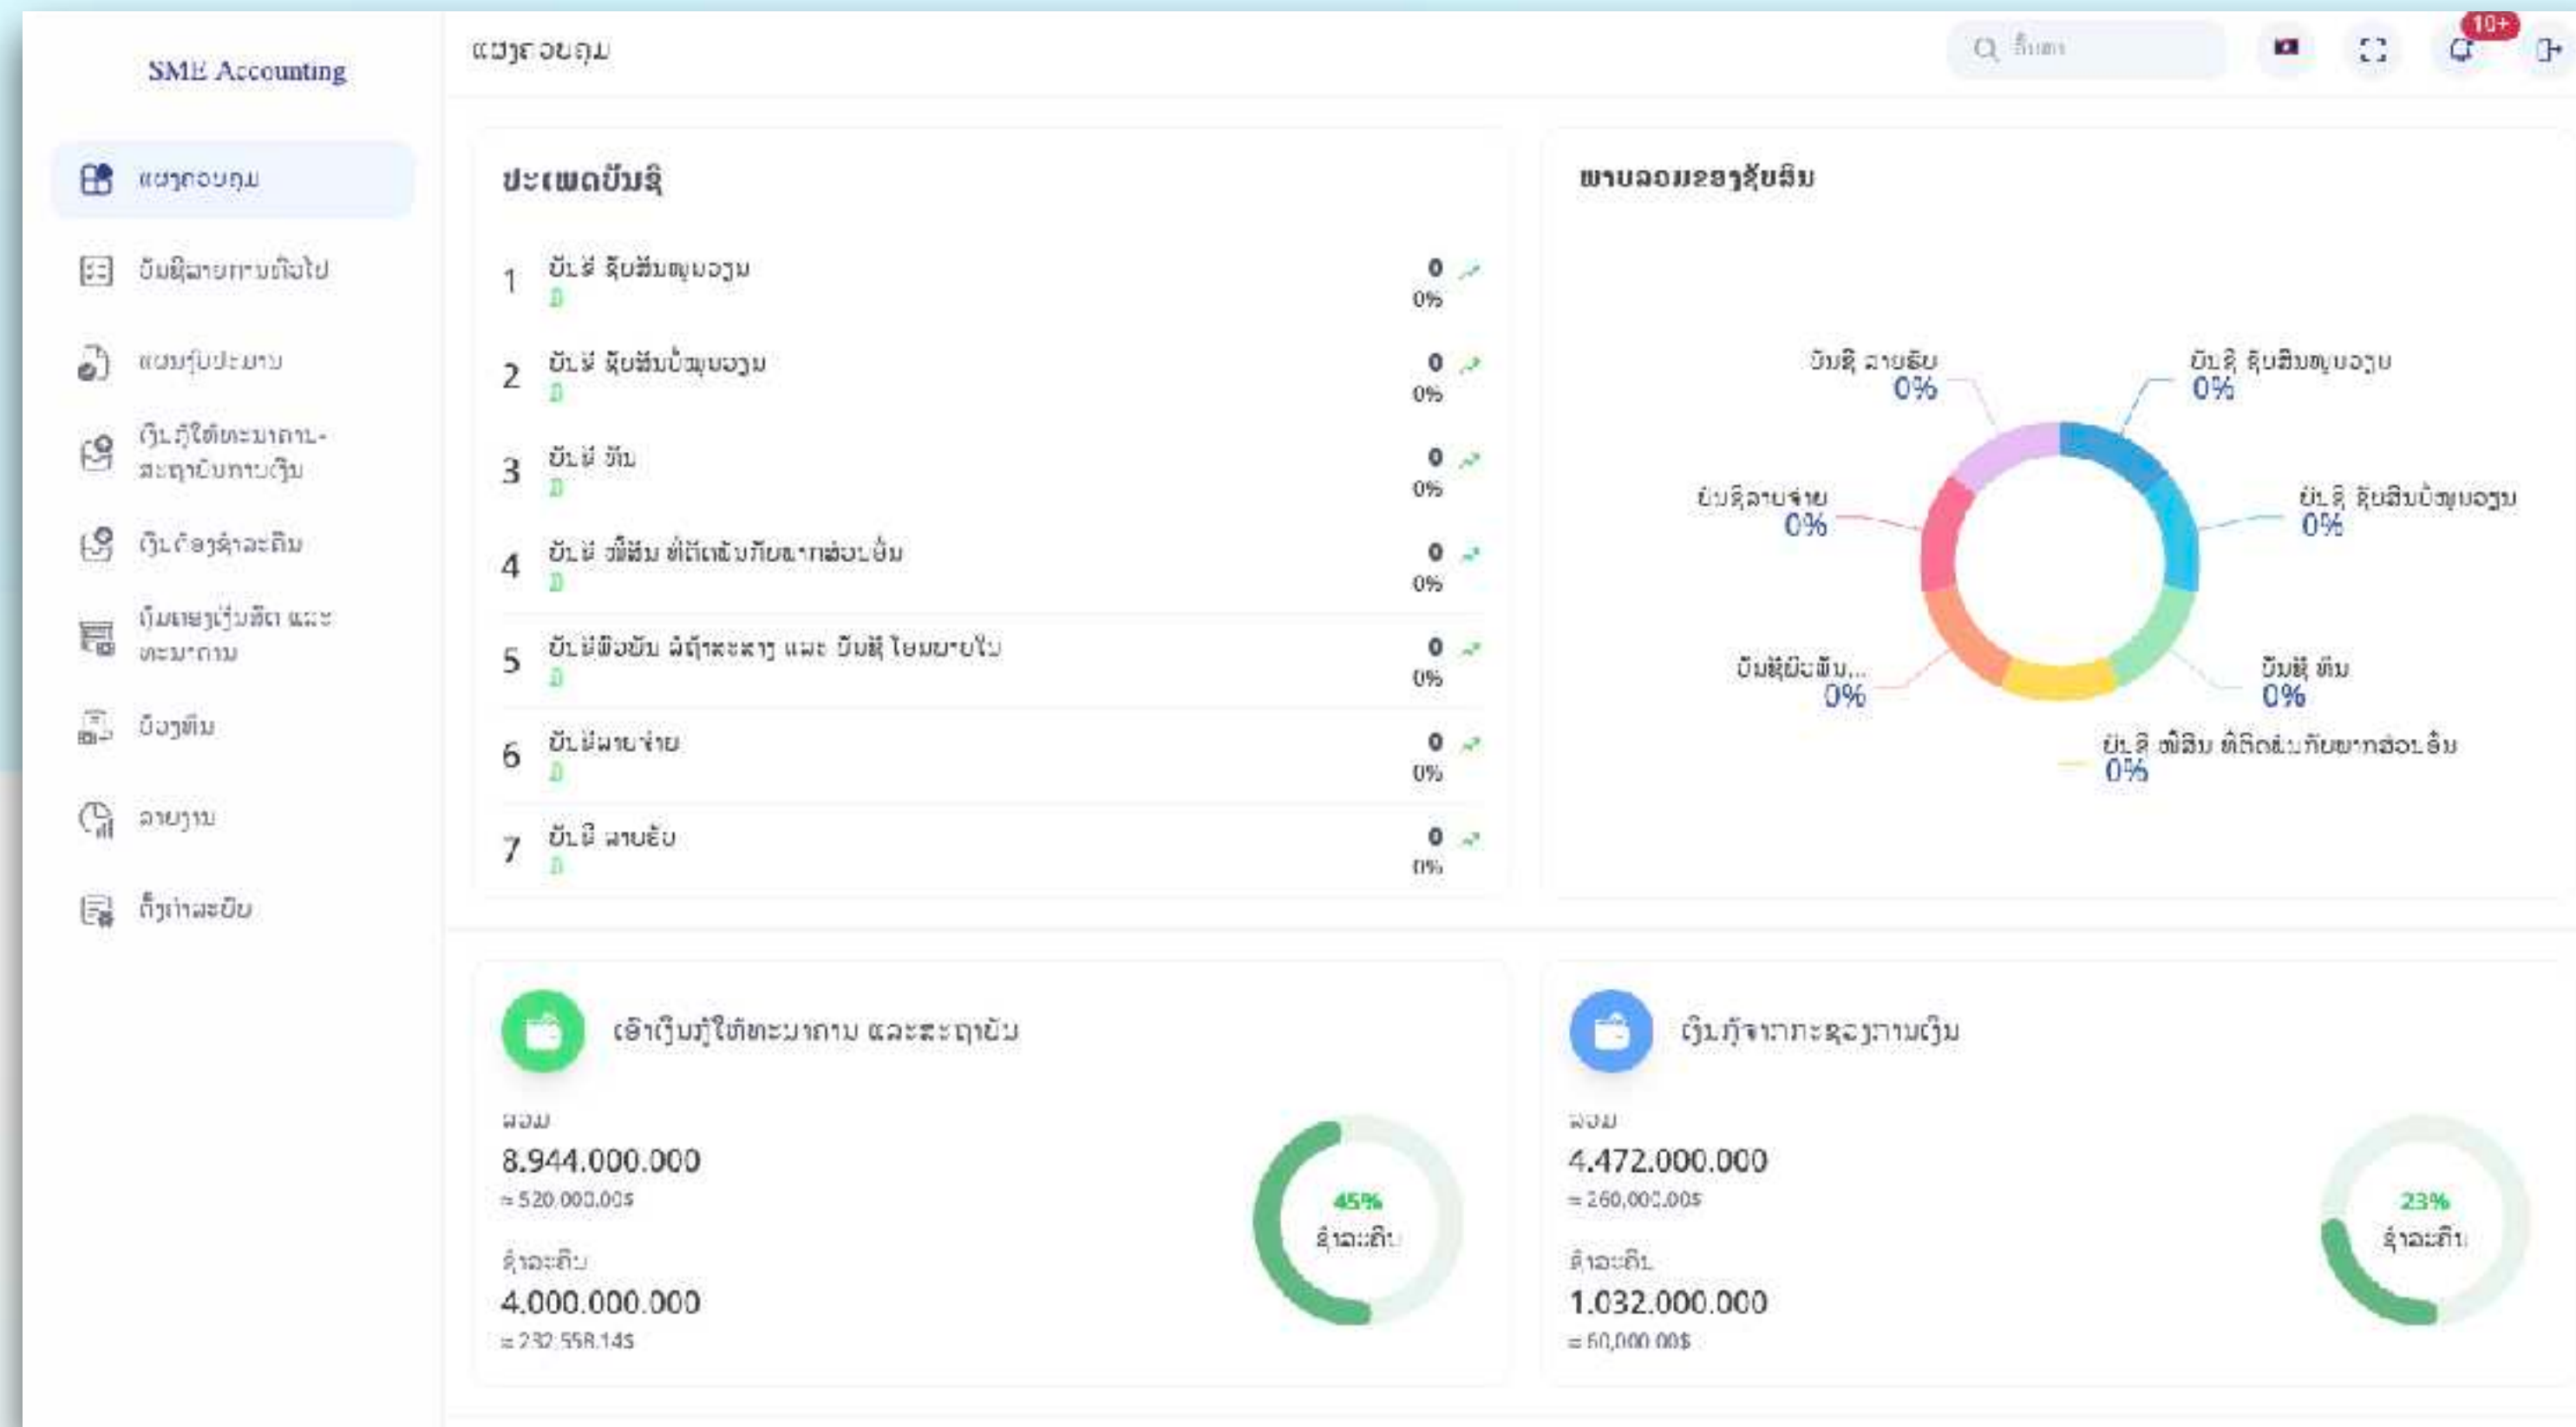

Type	Web Application
Year	2020
Description	This web-based system to provide real-time project information, enabling informed decisions for the project management team, donors, and stakeholders. It also allows public feedback, fostering accountability, transparency, and responsive project management. Data includes sub-project locations, capacity building information, Disaster Risk Management signals, and community feedback on livelihood and nutrition.

SME Fund - Management Information System (MIS)

Type	Web Application
Year	2022
Description	We've created a web application for DOSMEP, facilitating fund management and tracking fund distribution to Banks and Micro-finance Institutes. With this system, the SME department can monitor loan repayments, interest rates, and allocate funds to specific SME sectors, gaining insight into their utilization.

DOSMEP - SME Accounting & Financial Information Management System

Type	Web Application
Year	2022
Description	We've developed a web application called 'SME Account' exclusively for the Department of SME Promotion's internal use. This application is designed to streamline finance and accounting processes, offering modules for general ledger management, budget planning, and loan repayment tracking.
